

SECONDARY TEACHING

sesp.northwestern.edu/ugrad/secondary-teaching

SESP's interdisciplinary secondary teaching concentration combines subject-area courses in a chosen field from Weinberg College—biological sciences, chemistry, economics, English, history, mathematics, physics, political science, French or Spanish—with teacher education courses like child and adolescent development, and education theory and methods. The program leads to an Illinois Professional Educator license as well as a bachelor of science in education and social policy degree upon completion of licensure and degree requirements. The degree is 42 units.

Similar to the other SESP concentrations, which have a four unit practicum in the third year, secondary teaching students must complete a four unit student teaching internship in the last year while enrolled in TEACH_ED 388-0 Student Teaching in Multilingual & Multicultural Contexts: Secondary Humanities or TEACH_ED 385-0 Student Teaching in Multilingual and Multicultural Contexts: Secondary Math or TEACH_ED 386-0 Student Teaching in Multilingual and Multicultural Contexts: Secondary Science.

Northwestern undergraduates in schools other than SESP (i.e. Weinberg College of Arts and Sciences, School of Communication, etc.) have the option to complete requirements for teacher licensure eligibility while staying in their home school.

Students must also complete the Undergraduate Registration Requirement (<https://catalogs.northwestern.edu/undergraduate/requirements-policies/undergraduate-registration-requirement/>) and the degree requirements of their home school.

Total requirements—42 units

Foundational discipline requirements—10 units

Professional core—12 units

Teaching subject–area requirements—varies

Electives—8 or fewer as needed to complete the 42-unit degree requirement

Foundational Discipline Requirements (10 units)

- 2 natural sciences courses
- 2 empirical and deductive reasoning courses
- 2 historical studies courses
- 2 ethical and evaluative thinking courses (TEACH_ED 302-0 Social, Cultural, and Linguistic Contexts of Education will count as 1 of these)
- 2 literature and arts courses

Selected courses from Weinberg College and professional schools across the University fulfill distribution requirements.

Teaching Subject–Area Requirements (12–20.72 units)

Specific teaching subject–area courses prepare students to meet the requirements of the Illinois State Board of Education. Teaching subject–area requirements may differ from those of a departmental major, and departmental course offerings change frequently. Secondary teaching candidates must meet regularly with the secondary teaching adviser to ensure that requirements are met. In the event that courses listed here are no longer offered by the departments, suitable replacements will be found. Students are also responsible for any prerequisites. The unit totals below are approximate minimums. Exact unit totals depend on options chosen.

Electives (varies)

Additional units of elective coursework must be taken to complete the 42-unit degree requirement. Students are encouraged to discuss their elective plans with the teacher certification manager.

English as a Second Language (ESL) and Bilingual Education Endorsements (optional)

- Most requirements for these endorsements are met through other course work in this degree. To complete the endorsements students are encouraged to take the following courses:

Course	Title
TEACH_ED 320-0	Designing for Linguistically and Culturally Sustaining Instruction
or TEACH_ED 309-0	Designing and Supporting Discourse-Rich Environments for Learning
TEACH_ED 332-0	Assessment of Linguistically Diverse Students

Teacher Education Program

Students who wish to be licensed as teachers must apply to the SESP Teacher Education Program. Secondary Teaching within the program is approved by the Illinois State Board of Education. Completion of the courses alone does not result in licensure, nor is licensure required for completion of the SESP degree.

Application and Admission

Students completing a teacher licensure pathway as an undergraduate apply to the Teacher Education Program by the fall of their third year. To be admitted, candidates must have a minimum overall GPA of 2.5 and a minimum GPA of 3.0 in a humanities teaching subject-area or meet an annually calculated and determined GPA in math or science subject-areas. Additional admissions requirements include a letter of recommendation and a response to a selected essay prompt.

Clinical Experience

Students in the Teacher Education Program complete two clinical experiences: a school practicum (typically during fall of the last year); and student teaching (typically during winter of the last year).

To be eligible for the clinical experiences, students must have met the GPA requirements for and been admitted to the Teacher Education Program. Students need to be on track to have completed a minimum of 9 courses in the teaching subject area by the end of the practicum term for field-site placement with a department or teacher mentor at a local school. Additionally, students must be available to begin the practicum at the start of the field-site placement's academic school year. Please note that the students' practicum/student teaching field-site placement can be postponed, stopped or withdrawn due to concerns over their health or academic or professional performance. Adjustments to the timing of a clinical experience may be made on an individual case-by-case basis based on determined need; for example; those with an athletics scheduling conflict.

Clinical experiences gained at the field-site are central to the discussion of methods and theories in the practicum seminar (TEACH_ED 378-0 or

TEACH_ED 375-0 or TEACH_ED 376-0) and methodology courses (TEACH_ED 355-0–TEACH_ED 359-0).

To be eligible for student teaching, students must have successfully completed the applicable TEACH_ED 355-0–TEACH_ED 359-0 course(s) as well as TEACH_ED 378-0 or TEACH_ED 375-0 or TEACH_ED 376-0, earned a passing score on the applicable ILTS Content-Area Test, fulfilled minimum GPA requirements for student teaching, completed 9 teaching subject–area courses and have been recommended for continuation to student teaching. Most school districts also require a criminal background check.

Student teaching involves full-time placement in a local school for the entire quarter. Teacher candidates attend an evening seminar (TEACH_ED 385-0, TEACH_ED 386-0 or TEACH_ED 388-0). The internship and seminar together earn 4 units. No other courses are taken concurrently. Teacher candidates are evaluated by their school mentor, a Northwestern supervisor, and the seminar instructor.

Other Licensure Requirements

In addition to successful completion of the clinical experiences, all teacher candidates must successfully complete the Teacher Performance Assessment, or equivalent as required by the Illinois State Board of Education, at the end of the practicum.

World language teacher candidates are required to complete the Oral Proficiency Interview of the ACTFL with a rating of upper-intermediate-high or better.

Recommendation for Licensure

Students are recommended for licensure when they successfully complete degree requirements, earn a rating of recommendation for licensure for practicum/student teaching and pass all outside tests as noted above. Although legal requirements for licensure vary from state to state, the SESP Teacher Education Program is flexible enough to permit students who plan carefully to complete provisional requirements for most states. As it is easier to obtain a teaching license in another state through reciprocity than through independent certification, all students who complete the program and are eligible are encouraged to apply for an Illinois license before leaving the state.

Students should apply for the license immediately upon graduation. Teacher Education Program graduates who are recommended, but do not apply for certification upon graduation may not be eligible for certification at a later date due to changes in state requirements.

The Illinois School Code has provided that school districts may not knowingly employ individuals who have been convicted of certain offenses (principally those related to sexual misconduct or drugs). Illinois school districts require applicants to submit to a criminal background check.

TEACH_ED 301-0 Schooling in America (1 Unit) The history and development of schooling in America.

TEACH_ED 302-0 Social, Cultural, and Linguistic Contexts of Education (1 Unit) The course draws from the interdisciplinary study of socio-cultural, linguistic, and contextual influences of education, as well as perspectives from learning, teaching, research and policy to deepen understandings of the contexts of teaching and learning.

TEACH_ED 309-0 Designing and Supporting Discourse-Rich Environments for Learning (1 Unit) This course addresses how to support discourse in the classroom, including designing discussion-

based tasks, supporting students in academic discourse, creating a classroom climate supportive of discussion, questioning strategies and talk moves that facilitate discussion, and assessment in discussion-based tasks. We will examine current approaches to supporting effective classroom discussions drawn from different grade levels and academic disciplines.

TEACH_ED 310-0 Foundations of Learning in a New Language (1 Unit) This course engages pre-service teacher candidates in exploring historical, political, sociocultural, philosophical and educational practices that impact linguistically and culturally diverse learners in American schools. Topics include historical and current federal and state laws regarding the learning of English as a new language, foundations of first and second language acquisition, child development, sociocultural theory, and comparative international language instruction.

TEACH_ED 311-0 Elementary Science Methods and Content (1 Unit) This course prepares preservice teachers to teach science in the elementary grades. Inquiry is a grounding principle that will be explored in the context of science planning. Candidates will examine interdisciplinary planning and shared pedagogy, and methodologies for science.

TEACH_ED 314-0 Mathematics for Elementary Teachers (1 Unit) This course builds content area knowledge in mathematics that is essential for elementary and middle grades teachers. In addition to rigorous practice in a wide range of mathematical topics, participants will study those topics conceptually and historically. Topics include counting, cardinality, operations, algebraic thinking, fractions, measurement, statistics, and geometry.

TEACH_ED 315-0 Elementary Social Studies Methods and Content (1 Unit) This course prepares preservice teachers to teach social studies in the elementary grades. Inquiry is a grounding principle that will be explored in the context of social studies planning. Candidates will examine interdisciplinary planning and shared pedagogy, and methodologies for social studies.

TEACH_ED 318-0 Topics in Teaching Math: Geometry (1 Unit) This is a geometry content course for future math teachers.

TEACH_ED 319-0 Topics in Teaching Math: Statistics and Probability (1 Unit) This is a statistics and probability content course for future math teachers.

TEACH_ED 320-0 Designing for Linguistically and Culturally Sustaining Instruction (1 Unit) This course engages pre-service candidates in developing equitable and sustaining planning and instructional techniques reflective of the lives, languages, literacies, and cultural ways of being that represent the children they will teach. Through exploring diverse instructional practices, this course delves into understanding strategies and ways of thinking about content that transform the instructional experiences we can offer our students.

TEACH_ED 322-0 Linguistics Informed Approaches to Literacy (1 Unit) The Linguistics Informed Approaches to Literacy course supports students in analyzing the aims of linguistic science as well as how linguistic concepts apply to teaching in a variety of settings (including with multilingual students, monolingual students, and bilingual classrooms). Students will think about the complexities of language and how they connect with identity, culture, power, and schooling. Students explore topics like syntax, phonology, morphology, semantics, and cognates as they develop their own metalinguistic awareness in support of facilitating effective teaching and learning. A focal area will be supporting the development of students' literacies. Content-area reading topics include but are not limited to pre-reading, post-reading, vocabulary, fluency, and comprehension.

TEACH_ED 323-0 Elementary Literacy Methods & Content (1 Unit)

In the course, participants will gain an understanding of the cognitive foundations of reading comprehension and current theory and practice related to literacy, and consider how they influence methods of instruction and assessment. This includes an emphasis on the interrelationships between reading processes and language learning as well as personal writing experiences, writing in various genres, and management of writing workshops.

TEACH_ED 324-0 Critical Issues in Literacy (1 Unit) Using political, psychological, and sociological lenses, this course deals with the interaction between theory and practice in literacy education across the curriculum. Issues include why we teach literature, how we teach writing, and how language interacts with other literacy strands. The course focuses on classroom implications and applications of these and related issues including the role of literacy in content areas.

TEACH_ED 326-0 Elementary Math: Methods and Content (1 Unit)

The course provides an overview of mathematical topics taught in elementary and middle school. Course participants learn in small groups and reflect on their own and children's learning. Pedagogical contexts for the mathematical concepts are provided. Review of research on children's conceptions of various mathematical topics, leading to a fuller comprehension of teaching and learning mathematics.

TEACH_ED 327-0 Educating Exceptional Children (1 Unit) Students with disabilities, including learning disabilities resulting from human development and/or accidents; understanding and application of approved emergency, educational, and rehabilitative activities; interrelationships with medical, health, and educational personnel.

TEACH_ED 328-0 Dynamics of Middle School Curriculum (1 Unit) This course examines the unique characteristics of middle school learning and the educational needs of young adolescent learners. Students will compare and contrast a variety of middle school models, policy statements, visions and reforms. Major topics include public policy issues, adolescent development, standards and curriculum, assessment measures, instructional strategies, critical thinking, culturally responsive practices, interdisciplinary instruction, school leadership, and technology.

TEACH_ED 329-0 Cognition and Culture in Teaching and Learning (1 Unit) This course is an exploration of the theoretical foundations of research on culture and cognition and how to apply these ideas to views of learning and teaching in a variety of settings. Students enrolled in the course can still receive credit if LOC/LRN_SCI 214-0 has already been taken. This course builds on topics from LRN_SCI 301-0 with an emphasis on classroom environment.

TEACH_ED 332-0 Assessment of Linguistically Diverse Students (1 Unit) This course engages pre-service teacher candidates in learning about a variety of assessment approaches, with special attention to the assessment of English-Language Learners. Issues of legality, bias, non-discriminatory policies, and ethical considerations that must accompany decisions about standards and practices used in the assessment of culturally and linguistically diverse students will be explored.

TEACH_ED 333-0 Science Content for Teachers (1 Unit) This class covers content for future science teachers, including earth and space science.

TEACH_ED 334-0 Social Science Content for Teachers (1 Unit) The course includes content for future social studies teachers, including geography and Illinois history.

TEACH_ED 336-0 Instructional Design & Assessment (1 Unit) This course takes a closer look at the two most important areas of curriculum and instruction: Instructional Design and Assessment. Students will gain

an overview of various approaches to curriculum design and instructional models. Students will investigate several kinds of assessments, and how those assessments are closely linked to instructional design, teaching, and learning.

TEACH_ED 338-0 Computational Tools for Justice and Inquiry-Based Learning (1 Unit) This course is designed to help teachers use models to explore new technologies, evaluate their educational potential, and develop scenarios of use consistent with their teaching philosophy.

TEACH_ED 351-0 Topics in Teaching and Learning (1 Unit) The MS_ED 451 topics number is used for new courses, or courses that are likely to only be offered a few times before changing. See department for a full description of the course.

TEACH_ED 355-0 Methods & Techniques: World Languages (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for high school students.

TEACH_ED 356-0 Methods & Techniques: English (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for high school students.

TEACH_ED 357-0 Methods and Techniques: Secondary Mathematics (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for high school students.

TEACH_ED 358-0 Methods and Techniques: Science (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for high school students.

TEACH_ED 359-0 Methods & Techniques: Social Science (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for high school students.

TEACH_ED 366-0 Middle Grades Methods & Techniques of Teaching: English (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for middle grade students.

TEACH_ED 367-0 Middle Grades Methods & Techniques of Teaching: Mathematics (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for middle grade students.

TEACH_ED 368-0 Middle Grades Methods & Techniques of Teaching: Science (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for middle grade students.

TEACH_ED 369-0 Middle Grades Methods & Techniques of Teaching: Social Sciences (1 Unit) Analysis of research, teaching methodologies, and literature related to the content area. Learning experiences, methods, and educational techniques appropriate for middle grade students.

TEACH_ED 373-0 Topics in High School Math (1 Unit) Special topic determined by program need. See program for description when the course is offered.

TEACH_ED 375-0 Theory & Practice of Tchg in Multiling. & Multicult. Contexts: Secondary Math (1 Unit) This course is strategically designed to support teacher candidates in applying their theoretical understandings as they engage in the practices of observing, planning, teaching, assessing, and reflecting in their fall practicum. Asset-based pedagogies are central and teacher candidates will engage in a variety

of experiences that help them learn about their students and school communities (including understanding students' linguistic repertoires).

TEACH_ED 376-0 Theory & Practice of Tchg in Multiling. & Multicult. Contexts: Secondary Science (1 Unit) This course is strategically designed to support teacher candidates in applying their theoretical understandings as they engage in the practices of observing, planning, teaching, assessing, and reflecting in their fall practicum. Asset-based pedagogies are central and teacher candidates will engage in a variety of experiences that help them learn about their students and school communities (including understanding students' linguistic repertoires).

TEACH_ED 377-0 Theory & Practice of Teaching in Multiling. & Multicult. Contexts: Elementary (1 Unit) This course is strategically designed to support teacher candidates in applying their theoretical understandings as they engage in the practices of observing, planning, teaching, assessing, and reflecting in their fall practicum. Asset-based pedagogies are central and teacher candidates will engage in a variety of experiences that help them learn about their students and school communities (including understanding students' linguistic repertoires).

TEACH_ED 378-0 Theory & Practice of Tchg in Multiling. & Multicult. Contexts: Sec. Humanities (1 Unit) This course is strategically designed to support teacher candidates in applying their theoretical understandings as they engage in the practices of observing, planning, teaching, assessing, and reflecting in their fall practicum. Asset-based pedagogies are central and teacher candidates will engage in a variety of experiences that help them learn about their students and school communities (including understanding students' linguistic repertoires).

TEACH_ED 381-0 BSED/BSJ Experiential Learning Community Workshop Series (0 Unit) In their second year, students choose 1 experiential education requirement – either the SESP Practicum, Student Teaching, or Medill Journalism Residency for 4 units of credit. The students participate in the Community Workshop Series during the year they complete their experiential education requirement.

TEACH_ED 385-0 Student Teaching in Multilingual and Multicultural Contexts: Secondary Math (4 Units) This course supports teacher candidates in developing skills, practices, and understandings essential for teaching, including the use of theoretical knowledge to inform professional practice and the cultivation of questions rooted in practice to illuminate the meaning of theory. Teacher candidates are guided in developing and implementing of units that apply a variety of approaches (including to support linguistically diverse students). Prerequisite: TEACH_ED 375-0.

TEACH_ED 386-0 Student Teaching in Multilingual and Multicultural Contexts: Secondary Science (4 Units) This course supports teacher candidates in developing skills, practices, and understandings essential for teaching, including the use of theoretical knowledge to inform professional practice and the cultivation of questions rooted in practice to illuminate the meaning of theory. Teacher candidates are guided in developing and implementing of units that apply a variety of approaches (including to support linguistically diverse students). Prerequisite: TEACH_ED 376-0.

TEACH_ED 387-0 Student Teaching in Multilingual and Multicultural Contexts: Elementary (4 Units) This course supports teacher candidates in developing skills, practices, and understandings essential for teaching, including the use of theoretical knowledge to inform professional practice and the cultivation of questions rooted in practice to illuminate the meaning of theory. Teacher candidates are guided in developing and implementing of units that apply a variety of approaches (including to support linguistically diverse students). Pre-Requisite: TEACH_ED 377-0.

TEACH_ED 388-0 Student Teaching in Multilingual & Multicultural Contexts: Secondary Humanities (4 Units) This course supports teacher candidates in developing skills, practices, and understandings essential for teaching, including the use of theoretical knowledge to inform professional practice and the cultivation of questions rooted in practice to illuminate the meaning of theory. Teacher candidates are guided in developing and implementing of units that apply a variety of approaches (including to support linguistically diverse students). Prerequisite: TEACH_ED 378-0.
